

# CONSTRUCTION

## CIWM- Waste Awareness Certificate for Construction Wastes – Code WAC2

- **Duration:** 1 Day
- **Target audience:** Personnel involved in the construction sector whose work practices produce waste or those people who need a greater understanding of waste principles.
- **Learning Objectives:**
  - Identify different types, natures and quantities of construction waste.
  - Use of the 'wastes hierarchy' as a framework for current waste management practices and disposal routes.
  - Familiarisation with legislation and best practice advice, focussing on Duty of Care and Site Waste Management Plans.
  - Understand the health and safety issues relating to the handling, movement and storage of construction wastes.

## Site Waste Management Plan's (SWMP) – Code CON2

- **Duration:** 1 Day
- **Target audience:** Managers in the construction sector responsible for developing or implementing a SWMP.
- **Learning Objectives:**
  - Understand why SWMP's are required.
  - How to develop a simple and effective SWMP.
  - How to establish a practical SWMP and reduce waste costs.
  - Instruct managers on record keeping requirements.
