Course Duration: 6 months

Weighbridge Operations Customer Case Study

Tailoring qualifications for our customers

Serac UK were recently approached by leading construction manufacturer, Aggregate Industries, to tailor the MPQC accredited Weighbridge qualification for over 270 Aggregate Industries employees.

The qualification pathway: **Level 3 Weighbridge Operations** was an intensive 6 month course that allowed candidates to become competent in weighbridge operations and understand how to control the flow of materials in and out of site.

The existing qualification that is offered through Serac, has been tailored in order to meet the needs of the employer, ensuring that there are additional units for the candidates to complete with variable credits available dependent upon the units chosen.

Mandatory Elements Covered

- Applying Health and Safety
- Environmental Conditions
- Provision of Customer Service
- Operating the Weighbridge
- Efficient Working Practices

Contact us today to find out how we can develop additional qualifications to suit the operational needs of your business.
